NICE & NASA Project Reporting & Metrics: System Overview (+ a little about evaluation!)

NICE-T PI Orientation Meeting and Training Workshop June 13, 2014

Susan Givens (presented by Ann Martin)

How Your Work Relates to NASA Evaluation

- Reporting
 - Your thoughts, challenges, and submitted data are read, digested, and used within the NICE team
- Your evaluator
 - Can benefit from resources and other support that the team can offer
 - <u>nice-evaluators@lists.nasa.gov</u> -- contact Mary Jo Leber to get your evaluator signed up, and encourage them to participate!
 - agency-cce-common-eval@lists.nasa.gov -connections to evaluators at NOAA & NSF too

NICE Resources

NICE-funded evaluators can use this password-protected space to share climate education related evaluation tools, resources, and instruments. The following resources have been shared by members of our community so that all of us may benefit and leverage prior work. Each entry includes some basic usage, reference, and point-of-contact information. Please visit the Suggestion Box tab if you would like to add some of your materials to this space.

CABPES 9-12 Youth Pre-Post Instrument

Lynds_CABPES_K12PrePostInstrument2013.pdf

AUTHOR: CIRES/Susan Lynds

POINT OF CONTACT:Susan Lynds, CIRES at UC Boulder, EMAIL

DESCRIPTION AND REFERENCES: Program is a partnership with the Colorado Association of Black Professional Engineers and Scientists, a non-profit organization dedicated to encouraging African-American and underrepresented youth to pursue careers in engineering and applied sciences. Pre-experience survey for high school students in an after-school program.

Project Activity Forms

Online Quarterly Reports

Annual and Final Reports

Rolled Up to NASA HQ

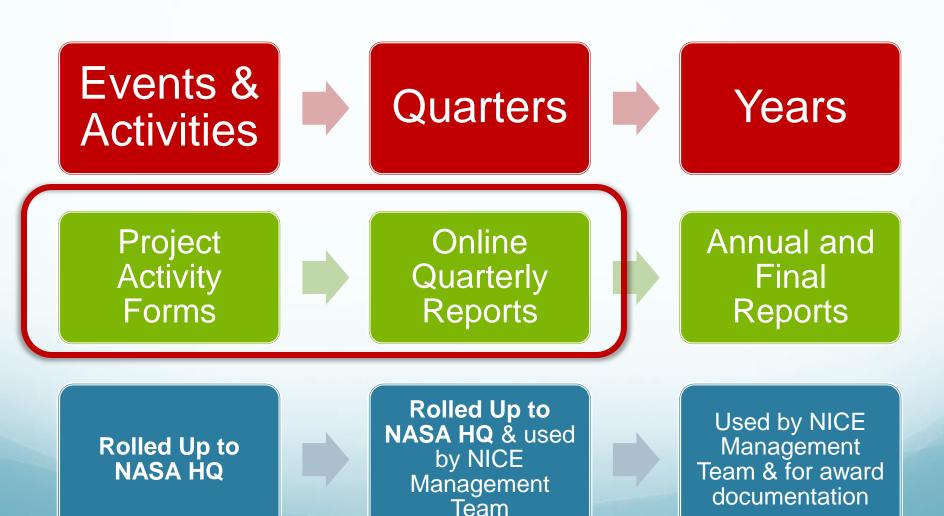

Rolled Up to NASA HQ & used by NICE Management Team

Used by NICE
Management
Team & for award
documentation

This Overview Covers . . .

The online reporting system.

- Is one-stop shopping for Project Activity Forms & Quarterly Reports
- Is linked to your login, providing access to your specific reporting page
- Walks you through all the data you need to submit & all questions you need to respond to
- Is intended to save you time & streamline your reports to NASA and NICE
- Allows you to review what you have already submitted
- Will be explored in further detail in a hands-on workshop later this morning!

Access through the NICE Site's PI Workspace

Switch to Live Online View!

What We're Looking For

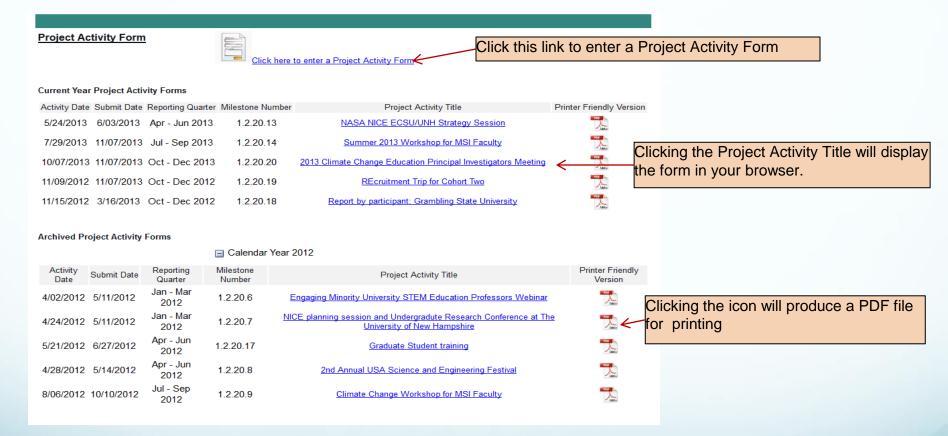

Any time you reach people outside your funded project team, that's likely to be a reportable event.

- ALL activities: Complete a PAF via the NICE Reporting System (http://nice.larc.nasa.gov, then login and visit the PI workspace).
- PAFs are available to be completed at any time.

Project Activity Forms Ask For:

- Mapping to a milestone
- Reporting Period
- Type of Activity (Informal Education, Pre-College, Higher Education)
- Title & Description
- Date, Duration, & Location
- Questions about included components
- Counts (participants, activities, courses, etc.)

Function: View Project Activity Forms

Project Activity Forms are divided into two sections

- Current Year Project Activity Forms
- Archived Project Activity Forms (listed by year)

What We're Looking For

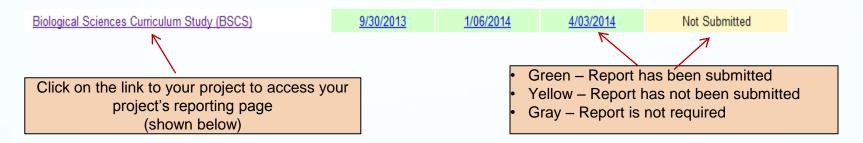

At the end of each quarter (October – December, January – March, April – June, July – September), the online Reporting System opens for the submission of NICE Quarterly reports.

- Completed online (http://nice.larc.nasa.gov, then login and visit the PI workspace).
- Report includes planned and actual metrics (participants reached & opportunities/activities offered) which we use to report to HQ, along with listing publications and updated milestones for project tracking.
- Report is also an opportunity to share accomplishments, challenges, & lessons learned.

Quarterly Reports Ask For:

- Milestone updates and metrics
 - Including Higher Ed Measures (# of courses; # of students; # of faculty) and K-12 Measures (# of teachers; # of students)
- Project Status
 - Short updates on Accomplishments, Challenges and Lessons Learned
- Publications

Milestones/Metrics

This section provides a list of project milestones. Users may add a new milestone, update the status of a milestone, update the metrics associated with a milestone, or delete a

Indicates period for which user is reporting data

Only report activities that took place during April-June 2014*

There are 4 steps to preparing/submitting the report.

- Milestones/Metrics
- **Project Status**
- **Publications**
- View/Submit

Begin with a review of the project milestones. Add, delete and update the progress of milestones and provide metrics data. Milestone that are pass the finish date and not completed are in red.

Biological Sciences Curriculum Study (BSCS)

Project Status

This section allows users to describe project accomplishments, challenges, and lessons learned this quarter.

Only report activities that took place during April-June 2014

Milestones/Metrics	Project Status	Publications	View/Submit			
		Save Project Status	Continue To Publications	Reset	Return To Main Menu	
Accomplishments (r	equired): (maxim	um number of characte	ers 5000)			
Challenges: (Indica	te the reason for	milestone changes, if a	pplicable.) (maximum num	ber of char	acters 5000)	
Lessons Learned: (maximum numbe	r of characters 5000)				

Information on accomplishments, challenges and lessons learned by the project for the reporting period are provided in this section.

"Accomplishments" is the only required field; however completing all 3 fields is encouraged

Function: Publications

Biological Sciences Curriculum Study (BSCS)

Publications

This section allows users to provide information on any conference presentations (oral/poster) made this quarter or any written works published this quarter.

If you have produced a work that has been selected for publication, but will appear in the publication in the future,

please wait to include it in the quarter that covers the actual publication date.

Only report activities that took place during April-June 2014
